INTERNAL RISK FACTORS

BUSINESS RELATED RISKS

- Our Company has adopted an integrated business model and our commercial success is largely dependent upon our ability to develop innovative specialized solutions suitable to the needs of our customers. Our inability to effectively develop and implement IT solutions would impact our business, thereby impacting our revenue and profitability.***

We offer a comprehensive range of distributed IT solutions, including consulting, enterprise and end-user computing, managed print, and network services, and end-to-end IT solution. Our integrated business model enables us to provide end to end capabilities from developing and implementing IT solutions with innovative applications, through processes which are developed in-house by our technical team members and compliant with the pre-determined IT requirement of our clients. Our business model has been developed to ensure that the IT solutions provided by us are completely customizable. Our integrated business model enables us to provide end to end capabilities from developing and devising IT Solution with innovative applications. Our business model has been developed to ensure that the IT solution offered by us are completely customizable. We cater to various industries, including but not limited to home, medical, defense, education, IT and ITes, we need to continuously develop our solutions which are suitable for each industry and is as per the client requirement. Furthermore, we intend to expand our customer base and service offerings by catering to diverse industries domestically and internationally. We might have to invest a large amount of our resources and funds to ensure that we continue to provide diverse IT solution to our customers and are able to meet their customized demands of their requirement. We might have to allocate a major portion of the revenue or profits earned by our Company towards upgradation and efficient functioning of our operations and hiring qualified personnel, which may skew the resource allocation from other business activities, and possibly impacting our revenues and profitability.

The inability of our technical team members to develop innovative solutions for our clients could impede our growth and, thereby impacting our business operations and customer base. If we fail to continue to provide integrated and complete IT solutions, we might have to outsource services from third parties to carry out functions of our business model and provide a complete solution to our Clients, which could result in increased costs of operations, consequently forcing us to shift the burden of these costs to our customers, thereby affecting our cost competitiveness and financial condition. Therefore, the commercial success of our business is highly dependent on our ability to develop and design innovative IT solutions with diverse applications and provide an end to end IT solution to our clients. Our failure to successfully implement IT solution for clients or find new solution for our existing clients could adversely affect our business, prospects, results of operations and financial condition.

- Our success is dependent on our long-term relationship with our Customers. In particular, we are heavily reliant on our top 10 Customers. We do not, generally, enter into long term contracts with Customers, which exposes us to risks emanating from the inability to retain our established Customers as our clients.***

We offer end-to-end IT Solution to Customers across various end-user industries (Application Industries) such as information technology, information technology enabled services, entertainment and media, banking, financial services, and insurance (BFSI), national data centres and government entities including in the defence sector, education and research development institutions. Our business relationships are substantially reliant on these Customers.

Further, we are heavily reliant on our top 10 Customers and our revenue from operations from our top 10 Customers as on July 31, 2023, and Fiscal 2023 Fiscal 2022 and Fiscal 2021 is set out below:

Name of the Top Customers	Revenue from Operations*							
	July 31, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Revenue generated (in ₹ Lakhs)	As a % of revenue from operations	Revenue generated (in ₹ Lakhs)	As a % of revenue from operations	Revenue generated (in ₹ Lakhs)	As a % of revenue from operations	Revenue generated (in ₹ Lakhs)	As a % of revenue from operations
Top 5 Customers	623.69	12.50%	5,526.66	41.45%	4,038.44	39.26%	1994.9	31.15%
Top 10 Customers	827.04	16.55%	6,224.31	46.68%	4,517.11	43.91%	2,240.54	34.97%

*% is calculated based on total Revenue.

Our business relationships with our Customers have been built over time and while we, generally, do not enter into long term contracts with our Customers and significant portion of our revenue is routed through purchase orders, we have garnered repeat orders from our Customers. We cannot assure you that we will be able to retain the business of our existing key Customers or maintain the current level of business with each of these Customers. Further, our dependence on our top 10 Customers has increased from 48.43% in Fiscal 2021 to 85.86% during the period ended July 31, 2023 and we cannot assure you that we will not rely on our top 10 Customers for our revenue from operations.

Consequently, our business, results from operations, and financial condition are heavily dependent on our maintaining our relationship with our Customers, and, in particular, continuing to receive orders from such Customers and failure to do so, or inability to do so on commercially viable terms could have an adverse impact on our revenue and, or, margins, and, consequently, our profitability. There can be no assurance that we will be able to maintain the historic levels of business from these clients and customers or that we will be able to replace these clients in case we lose any of them. For further details of our clients, please refer to section titled ‘Our Business’ beginning on page 94.

Loss of all or a substantial portion of sales to any of our top 10 Customers, for any reason (including, due to failure to negotiate acceptable terms in such orders, adverse change in the financial condition of such Customers for various factors such as possible bankruptcy or liquidation or other financial hardship, merger or decline in their sales, reduced or delayed customer requirements, facility shutdowns, labour strikes, geopolitical reasons and, or, other work stoppages affecting production by such Customers) could have a material adverse impact on our business, results of operations, financial condition and cash flows.

3. We have been recognized as preferred partner by some of the leading IT equipment manufacturers for implementation of IT solution using their products. Loss of such preference may adversely affect our business and results of operations.

Our Company is engaged in business of implementation of end-to-end IT solutions as per the requirements of our Clients using the equipment and hardware of some of the leading IT equipment manufacturers. We have been recognized as preferred partner by the IT equipment manufacturers which include SAP, Cisco, IBM, Google and Lenovo. We presently have the following agreement with these IT companies:

Name of the Brand	Valid till	Brief description of the partnership	Area Coverage
SAP	Dec, 2026	SAP Gold Partner – Implementation services on S/4 Hana, Private and Public Edition, License and AMS	Global
Cisco	Dec, 2026	Premier Partner for Datacenter, Networking, Collaboration and Security	India & South Asia
IBM	Dec, 2026	Platinum Partner for IBM Power Server Solution	India & South Asia
Google	Dec, 2026	Google Cloud Partner and Google Workspace Partner	India
Lenovo	Sep, 2027	Platinum Partner for Datacenter and Endpoints	India & South Asia

Loss of all or any of the agreement or non-renewal thereof for any reason (including, due to failure to negotiate acceptable terms) could have a material adverse impact on our business, results of operations, financial condition and cash flows.

4. The length of our sales cycle may fluctuate significantly and depends on several external factors which may result in significant fluctuations in our revenues.

A customer's decision to purchase our IT offering or products often involves a comprehensive implementation process across the customer's network(s) which includes customer education, evaluation by a number of employees in our customers' organisation and, often, a significant strategic or operational decision by our customers. Our sales efforts involve educating our customers about the use and benefits of our products and solutions, including any potential cost savings achievable by organisation that partner with us.

Customers sometimes undertake a significantly long evaluation process which also involves evaluation of our competitors' services and can result in a lengthy sales cycle. Moreover, a purchase decision by a potential customer typically requires extended evaluation, testing and the approval of senior decision makers. We spend substantial time, effort and money on our sales efforts without any assurance that our efforts will produce any sales. Additionally, implementing our products and any related services may entail a significant commitment of resources by prospective customers, accompanied by the risks and delays frequently associated with significant technology implementation projects. Such delays and fluctuations could cause our revenues and results of operation to fluctuate significantly across time periods, and we may not be able to adjust our costs quickly enough to offset such lower revenues, potentially adversely impacting our business, operating results and financial condition.

5. ***We will not receive any proceeds from the Offer for Sale. The Selling Shareholders will receive the net proceeds from the Offer for Sale.***

The Offer consists of a Fresh Issue and an Offer for Sale. The Offer for Sale will comprise 9.07% of the total Offer size. The Selling Shareholders will be entitled to the Net Proceeds from the Offer for Sale, which comprises proceeds from the Offer for Sale net of Offer Expenses shared by the Selling Shareholders, and we will not receive any proceeds from the Offer for Sale. Accordingly, to such extent, our Promoters may be interested in the Offer in connection with the Equity Shares offered by the Promoters' Group Selling Shareholder in the Offer for Sale.

6. ***Any inability to pass on increased price of the IT equipment, used for implementation of IT solutions may affect our profitability.***

The IT equipment was use as a percentage of total revenue during the four months period ended July 31, 2023 and March 31, 2023, March 31, 2022 and March 31, 2021 was 75.26% , 77.64%, 89.37% and 91.26%, respectively. Further, any fluctuations in the demand and/or supply of our IT equipment may impact its purchase price. In addition to above, the availability and price of our equipment may be subject to a number of factors beyond our control, including economic factors and changes in government policies and regulations. We have not entered into long term contracts with our suppliers for price. The prices of equipment are normally based on the quotes we receive from various suppliers. They are not contractually obligated to supply their equipment to us at reasonable prices.

We do not have an understanding or formal agreements executed with our customers, wherein we have mutually agreed to pass on any increase in the cost of equipment to our customers. In the event, we are unable to account the increased cost of equipment in the cost of our offering, our financial condition and result of operations would be severely impacted. We cannot assure you that we will always be able to meet our equipment requirements at prices acceptable to us, or at all, or that we will be able to pass on any increase in the cost of equipment to our customers. Our inability to pass on the increased costs of equipment to our customers in future, may affect our profitability.

7. ***We may become liable to our customers and lose customers if we have defects or disruptions in our service or if we provide poor service.***

We deliver IT solution as a service, and errors or defects in the implementation underlying our services, or a failure of our hosting infrastructure, may make our services unavailable to our customers. Majority of our contracts or service agreements involve projects that are critical to the operations of our clients' businesses. Any failure in a client's system and any direct damages, expenses, costs, obligations could result in a claim for substantial damages against us depending on the terms agreed in the contracts or service agreements. In the past, we have never been subjected to any such direct damages, expenses, costs, obligations. However, any errors, defects, disruptions in service or other performance problems with our services, whether in connection with the day-to-day operation of our services, upgrades or otherwise, could damage our customers' businesses. Such events may also give rise to complaints and actions against us. All these factors could adversely affect our business and results of operation.

8. ***There are outstanding litigations involving our Company, Promoters and Directors which, if determined adversely, may affect our business and financial condition.***

As on the date of this Draft Red Herring Prospectus, our Company, Promoters and Directors are involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and/or severally from us and/or other parties, as the case may be. We cannot assure you that these legal proceedings will be decided in favour of our Company, Promoters and Directors or that no further liability will arise out of these proceedings. 9. *Our business is dependent on the contractual arrangements entered into by us. Many of our client contracts can be terminated with or without cause by providing notice and without termination-related penalties.*

We enter contracts with our clients which impose several contractual obligations upon us. If we are unable to meet these contractual obligations and / or our clients perceive any deficiency in our services, we may face legal liabilities and consequent damage to our reputation which may in-turn adversely impact our business, financial condition and results of operations. There are also some contracts, which terminable by our clients in writing upon committing any breach or non-observance of any conditions of the Agreements entered into viz. fraud by our Company or any misconduct of our associate employees which could adversely affect the reputation of our clients.

While, we consider all factors internally prior to entering into such contractual agreements, we cannot assure you that such clients may choose to terminate their agreements with our Company based on the terms stated above. Further, the non-compliance or breach of the terms of the contractual arrangements by either party to the agreements may lead to, among other things, damages, penalties or termination of the agreements, which may consequently result in our inability to attract further business in the future.

10. *We face intense competition. If we are unable to compete effectively, the results of operations and prospects for our business could be harmed.*

We operate in an intensely competitive industry that experiences rapid technological developments, changes in industry standards, and changes in customer requirements. Our competitors include large IT consulting firms, captive divisions of large multinational technology firms, large Indian IT services firms, in-house IT departments of large corporations, in addition to numerous smaller local competitors in the various geographic markets in which we operate.

The technology services industry is experiencing rapid changes that are affecting the competitive landscape. We may face competition from companies that increase in size or scope as the result of strategic mergers or acquisitions, which may result in larger competitors with significant resources that benefit from economies of scale and scope. These transactions may include consolidation activity among global technology majors, hardware manufacturers, software companies and vendors, and service providers. The result of any such vertical integration may be greater integration of products and services and a larger portfolio of services on offer, in each case, relative to what was previously offered by such independent vendors. Our access to such products and services may be reduced as a result of such an industry trend and we may otherwise become disadvantaged relative to our potentially more circumscribed service portfolio.

Such events could have a variety of negative effects on our competitive position and our financial results, including reducing our revenue, increasing our costs, lowering our gross margin percentage, and requiring us to recognise impairments on our assets.

If our competitors develop and implement methodologies that yield greater efficiency and productivity, they may be able to offer services similar to ours at lower prices without adversely affecting their profit margins. Even if our offerings address industry and client needs, our competitors may be more successful at selling their services. If we are unable to provide our clients with superior services and solutions at competitive prices or successfully market those services to current and prospective clients, our business, results of operations and financial condition may suffer.

Many of our competitors have significantly greater financial, technical, and marketing resources, generate greater revenues, have more extensive existing client relationships and technology partners, and have greater international brand recognition than we do. We may be unable to compete successfully against these competitors or may lose clients to these competitors. There is a risk that increased competition could put downward pressure on the prices we can charge for our services and on our operating margins. Additionally, we believe that our ability to compete also depends in part on factors outside of our control, such as the price at which our competitors offer comparable services, and the extent of our competitors' responsiveness to their clients' needs.

11. *Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters remain associated with us.*

The success of our business operations is attributable to our Promoter, Directors, and the technical team. We believe that our relation with our Promoters, who have rich experience in markets, managing customers and handling overall businesses, has enabled us to experience growth and profitability. Our Promoters have been actively involved in the day-to-day operations and management since the incorporation of the Company. In case our Promoters disassociates themselves from our Company, we may have to incur additional costs to replace the services of our promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

We also depend significantly on the expertise, experience and continued efforts of our technical team; hence, our performance and success substantially depend on the ability to attract and retain our key employees, including our management team and experienced personnel. There can be no assurance that any member of our senior management or other experienced personnel will not leave us in the future. The lack of or loss of the services of such key persons in the organization could seriously impair our ability to continue to manage and expand our business. Our success is also dependent on our continuous ability to identify, hire, train retain and motivate R&D team, technical team, servicing team and sales and marketing personnel. Competition for personnel in our industry is intense, and the availability of suitable and qualified candidates is limited. If we fail to hire and retain our employees, the loss of their services could harm our business operations and financial condition could be adversely affected.

12. *Any IT system failures or lapses on part of any of our employees may lead to operational interruption, liabilities or reputational harm.*

The success of our businesses depends in part upon our ability to effectively deploy, implement and use information technology systems and advanced technology initiatives in a cost effective and timely basis. Our information technology systems include multiple applications, coding, configuration, and other systems that allocate resources and facilitate internal and external communications, enabling us to coordinate and make quick decisions across our business. Our computer networks may be vulnerable to unauthorised access, computer hacking, computer viruses, worms, malicious applications and other security problems caused by unauthorised access to, or improper use of, systems by our employees, subcontractors or third-party vendors. Any systems failure or security breach or lapse on our part or on the part of our employees and other ecosystem participants that results in the release of user data could harm our reputation and brand and, consequently, our business, in addition to exposing us to potential legal liability. Any such legal proceedings or actions may subject us to significant penalties and negative publicity, require us to change our business practices, increase our costs and severely disrupt our business.

13. *Our failure to adapt to technological developments or industry trends could affect the performance and features of our products and services and reduce our attractiveness to our customers.*

As our operations grow in scope and size, whether through offering of new services or expansion into new markets, we must continuously improve, upgrade, adapt and expand our systems and infrastructure to offer our customers enhanced services, features and functionality ahead of rapidly evolving customer demands, while maintaining the reliability and integrity of our systems and infrastructure in a cost-efficient and competitive manner. The systems, infrastructure and technologies we currently employ may become obsolete or be unable to support our increased size and scale. Even if we are able to maintain, upgrade or replace our existing systems or innovate or customize and develop new technologies and systems, we may not be as quick or efficient as our competitors in upgrading or replacing our systems. We may be unable to devote adequate financial resources or obtain sufficient financing on commercially acceptable terms in time, or at all, which may have a material adverse effect on our business, prospects, results of operation and financial condition.

Further, we may also not be able to attract talent to continue with the required upgrades and improvements to our systems. Our new systems, infrastructure and technologies may not perform satisfactorily, or be used effectively and we may also fail to adapt our products and services to our increased size and scale, customer requirements or emerging trends and industry standards. Further, there is no assurance that we will be able to downsize and scale back our systems and platforms quickly and efficiently enough to reduce unnecessary costs and expenses in the event that user demand falls below our expectations. In addition, to effectively manage our growth, we will also need to continue to improve our operational, financial and management controls, and our reporting systems and procedures.

Continued growth increases the challenges involved in, inter alia, continuous training and development of skilled and competent personnel and employees and developing and improving internal administrative infrastructure. These systems, enhancements and improvements will require significant capital expenditures and management resources. Failure to implement these improvements could adversely affect our ability to manage our growth. If we do not effectively manage our growth or appropriately expand and upgrade or downsize and scale back our systems and platforms, as the case may be, in a timely manner or at a reasonable cost, or both, or at all, we may lose market opportunities or damage our attractiveness and reputation with our customers, which may adversely affect our business, financial condition and results of operations.

14. *In execution of our projects, we collect information and data which are highly sensitive with regard to maintenance of secrecy of the projects and its data and information. Any failure on our part to maintain secrecy of our projects, will have an adverse effect on our results of operations and financial condition.*

We operate in an industry which is highly sensitive with regard to maintenance of secrecy of the projects and the data and information collected during the course of our operations. We provide our services to recruitment related exam management for government department and other academic exams, tax payer data management for Urban Development and Municipal Affairs and other urban local bodies. We have put in place firewall, security systems and procedures to protect the projects and its contents. Privacy of project content, its information, data including internet piracy, may decrease revenue from the exploitation of our projects. There was no incident of breach of our firewall, security systems and procedures in the past. However, there is no assurance that such breach will not occur in future also. Any failure on our part to maintain secrecy of our projects, will have an adverse effect on our results of operations and financial condition.

15. Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could adversely affect our business, results of operations and financial condition.

We have experienced considerable growth over the past three years and we have expanded our operations and product portfolio. We cannot assure you that our growth strategies will continue to be successful or that we will be able to continue to expand further, or at the same rate.

Our inability to execute our growth strategies in a timely manner or within budget estimates or our inability to meet the expectations of our customers and other stakeholders, could have an adverse effect on our business, results of operations and financial condition. Our future prospects will depend on our ability to grow our business and operations. The development of such future business could be affected by many factors, including general, political and economic conditions in India, government policies or strategies in respect of specific industries, prevailing interest rates and price of equipment and raw materials. Further, in order to manage our growth effectively, we must implement, upgrade and improve our operational systems, procedures and internal controls on a timely basis. If we fail to implement these systems, procedures and controls on a timely basis, or if there are weaknesses in our internal controls that would result in inconsistent internal standard operating procedures, we may not be able to meet our customers' needs, hire and retain new employees or operate our business effectively. Failure to manage growth effectively could adversely affect our business and results of operations.

16. There have been instances of delays of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 2013 to the RoC, and the GST Department. Further, there have also been instances where our Company has inadvertently failed to file certain statutory filing with the RoC.

In the past, there have been certain instances of delays in filing statutory forms as per the reporting requirements under the Companies Act, 1956 or the Companies Act, 2013 with the RoC, which have been subsequently filed by payment of an additional fee as specified by RoC. The details of delayed GST filings have been encapsulated as under:

No show cause notice in respect to the above has been received by our Company till date and except as stated in this Draft Red Herring Prospectus, no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays or defaults in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a material effect on our results of operations and financial position. For further details, please see “*Outstanding Litigation and Material Developments*” on page 163.

17. *We have substantial working capital requirements and may require additional financing to meet working capital requirements in the future. A failure in obtaining such additional financing at all or on terms favorable to us could have an adverse effect on our results of operations and financial condition.*

Our business requires significant amount of working capital and major portion of our working capital is utilized towards employee cost. As on March 31, 2023, we have ₹1,897.48 Lakhs outstanding working capital loan. Our growing scale and expansion may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high inventories and outstanding amount due from our debtors which may adversely affect our cash flows and our business operations.

For further details regarding working capital requirement, please refer to the section “*Objects of the Issue*” beginning on page 70.

18. *Interruptions or performance problems associated with our technology and infrastructure may harm our business and results of operations.*

Our continued growth depends in part on the ability of our existing and potential customers to access our solutions at any time. Although there were no instances in the past where interruptions or problems with our technology and infrastructure have caused performance issues, we may in future experience disruptions, data loss, outages and other performance problems with our technology infrastructure due to a variety of factors, including infrastructure changes, introductions of new functionality, human or software errors, capacity constraints, denial of service attacks or other security-related incidents. In some instances, we may not be able to identify the cause or causes of these performance problems within an acceptable period of time. It may become increasingly difficult to maintain and improve our performance, especially during peak usage times and as our products and websites of our customers become more complex and user traffic increases. If our products and websites of our customers are unavailable or if users of such products and websites are unable to access products and websites within a reasonable amount of time, or at all, our business would also be harmed. Any disruptions in these services, including as a result of actions outside of our control, would significantly impact the continued performance of our products. Any loss of the right to use any of these services could result in decreased functionality of our products until equivalent technology is either developed by us or, if available from another provider, is identified, obtained and integrated into our infrastructure. To the extent that we do not effectively address capacity constraints, upgrade our systems as needed, and continually develop our technology and network architecture to accommodate actual and anticipated changes in technology, our business, results of operations and financial condition could be harmed.

19. *Our Promoter, Directors and Key Management Personnel have interest in our Company, other than reimbursement of expenses incurred or remuneration.*

Therefore, there can be no assurance that our Promoter or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

- 21. *We do not own certain premises used by our Company. Disruption of our rights as licensee/ lessee or termination of the agreements with our licensors/ lessors would adversely impact our manufacturing operations and, consequently, our business.***

For details, please refer to the chapter titled "*Our Business- Land and Property*" on page 94 of this Draft Red Herring Prospectus.

Any such non-renewal or early termination or any disruption of our rights as lessee / licensee will adversely affect our business operations.

- 22. *Our inability to receive or renew the necessary licenses, approvals and registrations in a timely manner or at all may lead to interruption of our Company's operations.***

We require certain statutory and regulatory approvals, licenses, registrations and permissions to conduct our business operations, some of which have been granted for a fixed period of time and need to be renewed from time to time. As of date of this Draft Red Herring Prospectus, there are no pending proceedings, which have been initiated against us by the statutory authorities. - 23. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule***

The proposed fund requirement for our expansion plan, as detailed in the section titled "*Objects of the Issue*" is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled "*Objects of the Issue*" beginning on page 70.

- 24. *If we are unable to maintain and enhance our brand and reputation, the sales of our products may suffer which would have a material adverse effect on our business operations.***

Consequently, product defects, consumer complaints, or negative publicity or media reports involving us, or any of our products could harm our brand and reputation and may dilute the impact of our branding and marketing initiatives

and adversely affect our business and prospects. In addition, adverse publicity about any regulatory or legal action against us could damage our reputation and brand image, undermine our consumers' confidence in us and reduce long-term demand for our products, even if the regulatory or legal action is unfounded or immaterial to our operations.

25. *We are exposed to the risk of delays or non-payment by our clients and other counterparties, which may also result in cash flow mismatches.*

We are exposed to counter party credit risk in the usual course of our business dealings with our clients or other counterparties who may delay or fail to make payments or perform their other contractual obligations. The financial condition of our clients, business partners, suppliers and other counterparties may be affected by the performance of their business which may be impacted by several factors including general economic conditions. Accordingly, our Promoters will continue to retain significant control, including being able to control the composition of our Board of Directors, determine decisions requiring simple or special majority voting of shareholders, undertaking sale of all or substantially all of our assets, timing and distribution of dividends and termination of appointment of our officers, and our other shareholders may be unable to affect the outcome of such voting. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best

interests of our Company. Further, such control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company even if it is in our Company's best interest. The interests of our Promoters could conflict with the interests of our other equity shareholders, and our Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

29. *Our future fund requirements, in the form of further issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the Shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing Shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing Shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

30. *We have certain contingent liabilities and our financial condition and profitability may be adversely affected if any of these contingent liabilities materialize.*

As of July 31, 2023, our contingent liabilities and commitments (to the extent not provided for) as disclosed in the notes to our Restated Financial Information aggregated to ₹359.39 Lakhs. The details of our contingent liabilities are as follows:

(₹ in Lakhs)

Particulars	Amount
Claims against the company not acknowledged as debt *	359.39
Guarantees	
Total	359.39

For further details of contingent liability, see the section titled “*Financial Information*” on page 150 of this Draft Red Herring Prospectus. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

31. *We have in past entered into related party transactions and we may continue to do so in the future.*

As of July 31, 2023, we have entered into several related party transactions with our Group Entity, Promoters, individuals and entities forming a part of our promoter group relating to our operations. In addition, we have in the past also entered into transactions with other related parties. For further details, please refer to the chapter titled — “*Restated Financial Information- Annexure – 30: Significant Accounting Policies and Explanatory Notes to the Restated Financial Statements- Note 4 - Related Party Disclosures*” at page 150 – F22.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favorable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

32. *Our agreements with lenders for financial arrangements contain restrictive covenants for certain activities and if we are unable to get their approval, it might restrict our scope of activities and impede our growth plans.*

We have entered into agreements for our borrowings with certain lenders. These borrowings include secured fund based and non-fund based facilities. These agreements include restrictive covenants which mandate certain restrictions in terms of our business operations such as change in capital structure, formulation of any scheme of amalgamation or reconstruction, declaring dividends, further expansion of business, granting loans to directors, repaying unsecured loans from third parties, undertake guarantee obligations on behalf of any other borrower, which require our Company to obtain prior approval of the lenders for any of the above activities. We cannot assure you that our lenders will provide us with these approvals in the future. For details of these restrictive covenants, please refer to chapter titled “*Financial Indebtedness*” on page 152 of this Draft Red Herring Prospectus.

Further, some of our financing arrangements include covenants to maintain our total outside liabilities and total net worth up to a certain limit and certain other liquidity ratios. We cannot assure prospective investors that such covenants will not hinder our business development and growth in the future. A default under one of these financing agreements may also

result in cross-defaults under other financing agreements and result in the outstanding amounts under such financing agreements becoming due and payable immediately. Defaults under one or more of our Company's financing agreements may limit our flexibility in operating our business, which could have an adverse effect on our cash flows, business, results of operations and financial condition.

It may be possible for a lender to assert that we have not complied with all applicable terms under our existing financing documents. Further we cannot assure that we will have adequate funds at all times to repay these credit facilities and may also be subject to demands for the payment of penal interest.

33. *In addition to our existing indebtedness for our existing operations, we may incur further indebtedness during the course of business. We cannot assure that we would be able to service our existing and/ or additional indebtedness.*

As on July 31, 2023 our Company's total indebtedness is ₹ 2,838.79 Lakhs. In addition to the indebtedness for our existing operations, we may incur further indebtedness during the course of our business. We cannot assure you that we will be able to obtain further loans at favorable terms. Increased borrowings, if any, may adversely affect our debt-equity ratio and our ability to borrow at competitive rates. In addition, we cannot assure you that the budgeting of our working capital requirements for a particular year will be accurate. There may be situations where we may under-budget our working capital requirements, which may lead to delays in arranging additional working capital requirements, loss of reputation, levy of liquidated damages and can cause an adverse effect on our cash flows.

Any failure to service our indebtedness or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company, could trigger cross default provisions, penalties, acceleration of repayment of amounts due under such facilities which may cause an adverse effect on our business, financial condition and results of operations. For details of our indebtedness, please refer to the chapter titled — "*Financial Indebtedness*" on page 152 of this Draft Red Herring Prospectus.

34. *Our Promoter and Executive Director have extended personal guarantees with respect to loan facilities availed by our Company. Revocation of any or all of these personal guarantees may adversely affect our business operations and financial condition.*

Our Promoters and Executive Directors, Jim Rakesh and Sukanya Rakesh have extended personal guarantees in favour of certain banks with respect to the loan facilities availed by our Company from them. In the event any of these guarantees are revoked, our lenders may require us to furnish alternate guarantees or may demand a repayment of the outstanding amounts under the said facilities sanctioned or may even terminate the facilities sanctioned to us. There can be no assurance that our Company will be able to arrange such alternative guarantees in a timely manner or at all. If our lenders enforce these restrictive covenants or exercise their options under the relevant debt financing agreements, our operations and use of assets may be significantly hampered and lenders may demand the payment of the entire outstanding amount and this in turn may also affect our further borrowing abilities thereby adversely affecting our business and operations. For further details, please refer to the chapter titled "*Financial Indebtedness*" on page 152 of this Draft Red Herring Prospectus.

35. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and we are required to obtain consents from certain of our lenders prior to the declaration of dividend as per the terms of the agreements executed with them. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Although our Company has declared dividends in the past, however there can be no assurance that our Company will declare dividends in the future also. For further details, please refer to the chapter titled "*Dividend Policy*" and the chapter titled "*Financial Indebtedness*" on pages 149 and 152 respectively, of this Draft Red Herring Prospectus.

36. *The deployment of funds is entirely at our discretion and as per the details mentioned in the chapter titled "Objects of the Issue".*

As the issue size shall be less than ₹10,000 Lakhs, under Regulation 262 of the SEBI ICDR Regulations it is not required to appoint a credit rating agency registered with the SEBI by our Company, for overseeing the deployment and utilization of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of the issuer and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilization of Issue proceeds and shall have the flexibility in applying the

proceeds of this Issue. However, the management of our Company shall not have the power to alter the objects of this Issue except with the approval of the Shareholders of the Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act, 2013. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue, our Promoters shall provide them with an opportunity to exit at such price, and in such manner and conditions as may be specified by the SEBI, in respect to the same. For further details, please refer to the chapter titled “*Objects of the Issue*” on page 70 of this Draft Red Herring Prospectus.

37. *The requirements of being a listed company may strain our resources.*

We are not a listed Company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI (LODR) Regulations which will require us to file audited annual and unaudited half yearly results and limited review reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies which may adversely affect the financial position of the Company.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. As a result, management’s attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner.

38. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed fund requirement, for funding our capital expenditure and working capital requirements, primarily, as detailed in the chapter titled “*Objects of the Issue*” beginning on page 70 is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We, therefore, cannot assure that we would be able to execute our future plans/strategy within the estimated time frame.

39. *The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Although we currently intend that the Equity Shares will remain listed on the Stock Exchanges, there is no guarantee of the continued listing of the Equity Shares. Failure to maintain our listing on the Stock Exchanges or other securities markets could adversely affect the market value of the Equity Shares.

The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. You may not be able to resell your Equity Shares at a price that is attractive to you.

40. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on EMERGE Platform of National Stock Exchange of India Limited in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the EMERGE Platform of National Stock Exchange of India Limited due to delay in submission of required documents/ completion of formalities/compliance with required laws by the issuer. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

- 41. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoters or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through further issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoters and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoters and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

- 42. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.***

Any instance of disinvestments of Equity Shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sale of Equity Shares might occur.

- 43. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Offer Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise or withdraw their Bids during the Bid/Offer Period. While our Company is required to complete Allotment pursuant to the Issue within such period as may be prescribed under applicable law, events affecting the Bidders' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

- 44. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

- 45. *We will not receive any proceeds from the Offer. The Selling Shareholder will receive the entire proceeds from the Offer.***

The Selling Shareholders will receive the proceeds from the Offer for Sale. The Offer consists of a Fresh Issue and an Offer for Sale. The Selling Shareholders shall be entitled to the proceeds from the Offer for Sale (net of its portion of the Offer-related expenses) and our Company will not receive any proceeds from the Offer for Sale. None of our Directors or Key Managerial Personnel or Senior Management will receive, in whole or in part, any proceeds from the Offer.

EXTERNAL RISK FACTORS

- 46. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.***

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

47. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of ₹. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

48. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- Custom duties on imports of raw materials and components;
- Goods and Service Tax

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

49. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

50. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Draft Red Herring Prospectus.*

While facts and other statistics in the Draft Red Herring Prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "Industry Overview" beginning on page 85 of this Draft Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

51. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

52. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

53. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

54. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

55. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

We have experienced natural calamities such as earthquakes, tsunamis, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

56. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well as the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Offer.

For further details on the method and procedure for Bidding, please see section entitled “Offer Procedure” on page 191 of this Draft Red Herring Prospectus.

Our Company will comply with the SEBI ICDR Regulations and any other directions issued by SEBI in relation to this Offer. The Selling Shareholder has specifically confirmed that it will comply with the SEBI ICDR Regulations and any other directions issued by SEBI, as applicable in relation to the Offered Shares. In this regard, our Company and the Selling Shareholder have appointed the Book Running Lead Manager to manage this Offer and procure Bids for this Offer.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company and the Selling Shareholders in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

SECTION V – ABOUT THE COMPANY
INDUSTRY OVERVIEW

THE GLOBAL ECONOMY

Global Macroeconomic Variables

Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.8 percent in 2023, then rise to 3.0 percent in 2024. The rise in central bank rates to fight inflation and Russia’s war in Ukraine continue to weigh on economic activity. The rapid spread of COVID-19 in China dampened growth in 2022, but the recent reopening has paved the way for a faster-than-expected recovery. An already fragile global economy has been hit by several shocks, including higher-than-expected global inflation, particularly in the United States and major European economies, tighter financial conditions, a worse-than-expected slowdown in China due to COVID-19 outbreaks and subsequent lockdowns, and more detrimental effects from the conflict in Ukraine. However, it is anticipated that these sporadic shocks will be resolved in the short- to medium-term, and that, with proper fiscal stimulus and inflation control, the world GDP will eventually improve.

Emerging economies include regions such as China, India, ASEAN-5, Russia, Brazil, Mexico, Saudi Arabia, Nigeria, South Africa

The COVID-19 pandemic is expected to impact all the regions globally and consequentially the GDP growth within these regions as well. Barring a few emerging markets such as India and China, most of the other regions are expected to witness a significant impact on their GDP that could turn negative.

India to Become the 4th Largest Economy by 2030 (Baseline scenario): India is expected to move from being the 7th largest economy in 2018 to the 3rd (optimistic scenario) or 4th (baseline scenario) largest by 2030, depending on scenario conditions, driven by factors such as strong consumer demand and structural reforms.

Impact of COVID-19 on the IT sector / spend:

The Covid-19 pandemic served as evidence that investing in technology has a significant positive impact on business resilience and risk management. The advantages of "as a service" model are well-established, and the economic benefits of cloud are accelerating the adoption of a wide range of solutions, including managed cloud and private cloud deployments. Going forward, tech spending is expected to be a top priority for company investment, and rising cloud adoption is providing stability in some regions.

Global Technology Market Outlook

Two years ago, when the pandemic first began, industry executives were compelled to reconsider where and how digital expenditures needed to be made and to concentrate on enhancing transparency, flexibility, and robustness as 2021 got underway. To fully utilise emerging technologies like AI and ML and enhance remote work capabilities, organisations also had to reorient and reskill their workforces. The pandemic's effects on workforce challenges and shifting IT requirements are hastening the shift to services.

Software-as-a-service(S-a-a-S), infrastructure-as-a-service(I-a-a-S), and platform-as-a-service(P-a-a-S) will all continue to grow in popularity, and hardware-as-a-service will gain ground as a means for companies to offer integrated services to their hybrid workforces. Additionally, Everything-as-a-service (X-a-a-S) is expected to become essential to digital transformation and developing novel solutions and business models that will succeed in the new normal.

Global IT Industry

The global information technology market grew from \$8179.48 billion in 2022 to \$8852.41 billion in 2023 at a compound annual growth rate (CAGR) of 8.2%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, causing inflation across goods and services and affecting many markets across the globe. The information technology market is expected to grow to \$11995.97 billion in 2027 at a CAGR of 7.9%.

The information technology (IT) market consists of revenues earned by entities by providing IT services such as computer networking, broadcasting, systems design services and information distribution technologies like television and telephones and other equipment used during the process. The market value includes the value of related goods sold by the service provider or included within the service offering.

The information technology market also includes sales of computers, computer peripherals and telecommunications equipment which are used in providing IT services. Values in this market are ‘factory gate’ values, that is the value of goods sold by the manufacturers or creators of the goods, whether to other entities (including downstream manufacturers, wholesalers, distributors and retailers) or directly to end customers.

Asia-Pacific was the largest region in the information technology (IT) market in 2022. North America was the second largest region of the information technology market. The regions covered in the information technology market are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.

The main type of information technology (IT) are IT services, computer hardware, telecom, and software products. Computer hardware is the physical components that a computer system requires to function and encompasses everything within a PC or laptop. The services are used by large, small, and medium enterprises of financial services, retail and wholesale, manufacturing, healthcare and others.

The demand for cloud computing services is expected to drive the demand for IT services during the forecast period. In the cloud computing model, data is stored on the internet by a cloud computing provider, who manages and operates data storage as a service.

Many companies are now choosing applications hosted in the cloud for their day-to-day operations. For example, according to statistics provided by hostingtribunal.com, 60% of computing workloads were running in the public cloud in 2019. Similarly, 94% of enterprise workloads are expected to be processed by cloud data centers in 2021. Companies are also opting for cloud-based data storage, thus boosting the demand for IT services.

The outbreak of COVID-19 disease (COVID-19) has acted as a significant restraint on the information technology market in 2020 as supply chains were disrupted due to trade restrictions and employees working for these establishments faced difficulties related to infrastructure and communication owing to lockdowns imposed by governments globally, forcing them to work from home. COVID-19 is an infectious disease with flu-like symptoms including fever, cough, and difficulty in breathing.

Over the past five years there has been an increasing prevalence of low cost open source alternatives. Open source has become a preferred platform for developing new technology. In the past, software publishers would open source software that was not making money, but now companies are open sourcing software to increase their presence and share in the market. Supabase, a YC-incubated startup that offers developers an open-source alternative, announced that it had raised a \$6 million in funding to create new open-source tools.

The countries covered in the information technology (IT) market are Argentina, Australia, Austria, Belgium, Brazil, Canada, Chile, China, Colombia, Czech Republic, Denmark, Egypt, Finland, France, Germany, Hong Kong, India, Indonesia, Ireland, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Nigeria, Norway, Peru, Philippines, Poland, Portugal, Romania, Russia, Saudi Arabia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Thailand, Turkey, UAE, UK, USA, Venezuela and Vietnam.

Asia-Pacific was the largest region in the information technology (IT) market in 2022. North America was the second largest region of the information technology market.

A. Environment Laws

We are subject to various environment regulations as the operation of our establishments might have an impact on the environment in which they are situated. The basic purpose of the statutes given below is to control, abate and prevent pollution. In order to achieve these objectives, Pollution Control Boards (“PCBs”), which are vested with diverse powers to deal with water and air pollution, have been set up in each state and in the Centre. The PCBs are responsible for setting the standards for maintenance of clean air and water, directing the installation of pollution control devices in industries, and undertaking inspection to ensure that industries are functioning in compliance with the standards prescribed. These authorities also have the power of search, seizure, and investigation. All industries are required to obtain consent orders from the PCBs, which are required to be periodically renewed.

Environment (Protection) Act, 1986 as amended (“EPA”), the Environment Protection Rules, 1986 as amended (“EPA Rules”) and the Draft Environment Impact Assessment Notification, 2020 as amended (“Draft EIA”)

The EPA has been enacted with an objective of protection and improvement of the environment and for matters connected therewith. As per the EPA, the Central Government has been given the power to take all such measures for the purpose of protecting and improving the quality of the environment and to prevent environmental pollution. Further, the Central Government has been given the power to give directions in writing to any person or officer or any authority for any of the purposes of the Act, including the power to direct the closure, prohibition or regulation of any industry, operation or process. The EPA Rules lay down specific provisions regarding standards for emission or discharge of environmental pollutants, prohibition on carrying out industrial activities in certain geographical locations, functions of environmental laboratories and submission of samples for analysis. There are also provisions under the EPA and EPA Rules with respect to certain compliances by persons handling hazardous substances, furnishing of information to the authorities and agencies in certain cases, establishment of environmental laboratories and appointment of government analysts.

Further, the Ministry of Environment, Forest and Climate Change has issued Draft EIA, 2020 which proposes to replace the erstwhile Environment Impact Assessment Notification, 2006. The Draft EIA inter alia contemplates two kinds of approvals, being (i) prior environment clearance with the approval of expert committees; and (ii) environmental permission or provision without the approval of expert committees. Certain projects including clay and sand extraction, digging well or foundations of buildings, solar thermal power plants and common effluent treatment plants have been exempted from such approvals.

National Environment Policy (the “Policy”)

Some sector policies such as the National Agriculture Policy, 2018; National Population Policy, 2000; and

National Water Policy, 2012 have also contributed towards environmental management. All these policies have recognized the need for sustainable development in their specific contexts and formulated necessary strategies to give effect to such recognition. The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. It does not displace, but builds on the earlier policies.

The Objectives of the Policy are as follows:

- Conservation of critical environmental resources
- Intra-generational equity: Livelihood security for the poor
- Inter-generational equity
- Integration of environmental concerns in economic and social development
- Efficiency in environmental resource use
- Environmental governance
- Enhancement of resources for environmental conservation

The Policy evolved from the recognition that only such development is sustainable, which respects ecological constraints and the imperatives of justice. The objectives stated above are to be realized through various strategic interventions by different public authorities at Central, State and Local government levels. They would also be the basis of diverse partnerships. The principles followed in the Policy are:

- Human beings are the center of sustainable development concerns
- Right to development must be fulfilled so as to equitably meet developmental and environmental needs of present and future generations.
- In order to achieve sustainable development environmental protection shall constitute an integral part of the development process and cannot be considered in isolation from it.
- Where there are credible threats of serious or irreversible damage to key environmental resources, lack of full scientific certainty shall not be used as a reason for postponing cost-effective measures to prevent environmental degradation.
- In various public actions for environmental conservation, economic efficiency would be sought to be realized.

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a) Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Retail Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing continued to be six Working Days.
- b) Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- c) Phase III: Subsequently, the time duration from public issue closure to listing would be reduced to be three Working Days.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Offer BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Retail Individual Bidders using the UPI.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/P/2021/2480/1/M dated March 16, 2021.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer and the Selling Shareholders, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date.
